

Measuring the neck circumference - Instructions:

Variant 1:

Measure the neck circumference directly on your dog

- Where?
Measure where the collar will sit.
- How?
Measure snugly.
- Note:
Do not add any extra space as our collars are adjustable.

Variant 2:

Grab a well-fitting collar that your dog already wears.

- Where?
Measure the inside circumference/length.
- How?
Lay the collar flat in front of you.
- Note:
Depending on the type of collar or buckle, your starting and ending points will be where the collar is fastened.

Now that you know your dog's neck circumference, you can explore our models to see if there's something suitable for you.

For the custom creation, you can enter your dog's neck circumference on the order form and, for added security, place a checkmark next to the corresponding size. Here, you will see directly in which price category you fall.
